

BOTANIC GARDEN, CAMBRIDGE, MASS.

28 Aug. 1887

Dear Sir

It is clearly L
Scarida - was named
before at a much
place - as we are
likely or apt to do
in our names.

The number of the
flowers in a head is
not fixed - is apt to
vary, and what you
now send is about 12 -
I think - Truly yours

A Gray
